

Health Research Call

Submit your application
Until November 18th 2026

Every **scientific discovery** begins with a **question**; it's time to pursue yours.

The "la Caixa" Foundation Health Research Call looks for **outstanding scientists** based in **Spain and Portugal** ready to reshape how we diagnose and treat disease.

If you are working on a project in oncology, cardiovascular and related metabolic diseases, neuroscience, infectious diseases, or the enabling technologies for these areas, you could receive **up to one million euros**.

Take your research further. **Apply now.**

*A world
to discover*

Actin filaments in mouse cortical neurons grown in vitro. H. Vindin.
